Being a Woman

Chapter 1

That's me with the girls

My main circle of friends used to be the guys. I still have male friends but now my main circle of friends is the girls. With each of the girls we talked it out. We discussed it and then we **agreed** it. With *Agreement* we **committed** to it and we **formalised** it. This was *Rite of Passage*. I agreed to be a girl, although it was understood and agreed that I am still a man in public. But even as a man I have committed to a life of Womanhood.

I agreed that and the girls each agreed that in their eyes I was a girl. From that point on I would be “*she*” and one of the girls.

One can be one of the guys or one of the girls

Not both. It is one or the other. Once we agreed that I was one of the girls my life as a man was over. That was my commitment. That is how I became one of the girls.
