Circumcision

Chapter 1

I did not know until my mid-twenties that circumcision was routinely performed in some countries

I had thought this done only on Jews.

This barbaric practice must stop. Immediately. It is one of the worst forms of child abuse imaginable. To sexually mutilate a baby. The psychological trauma from this goes very, very deep indeed. There can be absolutely no justification for it whatsoever.

I first came across this when reading Jed Diamond's book "A Warrior's Journey Home". I was shocked beyond measure to find out that this was being done routinely in some countries.

I have taken Jed Diamond's work in this area and built upon it. Psychological trauma and rape are two areas that I specialise in, so this is an area that I have looked at in some depth.

I will be writing about this in time

Any doctor who sexually mutilates a baby is no doctor. What is the first principle of medicine? ***Do no harm.***

When I write about the long-term psychological effects of circumcision, people will be appalled. But it shouldn't take a genius to realise that sexually mutilating a baby is wrong.

Please, I mean for fuck's sake, what the hell is wrong with people!

Will people please wake up!
