Frankenstein

Chapter 1

Within me there is Duality

I am both David Banner. Or Bruce Banner, as the case may be. And I am hulk.

In this there is Duality in me. The Borg created the monster.

David Banner was a physician and scientist. I too have dedicated much of my life to medicine and physics. Like David Banner I too have very high level, but I have lived for years in exile, hunted, pursued, unable to work properly. Penniless. Broke.

Chapter 1 Esmeralda

Esmeralda may hold the key

For more than five and a half years the war has raged with the Borg. It has left its mark. Right now I am more *le bossu*, The hunchback. I am more the monster. But I think Esmeralda may hold the key. My way back is through the female.

The Balance

Chapter 1

I need the balance

The only time the screaming stops in my head is when I imagine myself as woman in the arms of a woman. Only in this way do I believe I can find the balance.
