Reports of Golden Age

Chapter 1

Hello and welcome to Golden Age Updates

It seems that we have unconfirmed reports of someone trying to launch a Golden Age in Ireland. Unconfirmed reports are that an Irishman is overthrowing physics and causing turmoil with new writing scripts he is developing for Irish. We also have reports that he has the secret to solving the world's energy crisis and that he has plans to address the housing crisis in Ireland. While at the same time building an Irish Space Agency and putting Ireland at the forefront of the aerospace industry.

And something about him achieving the Tao.
