Becoming a Woman

Chapter 1

I see myself primarily as a woman

But with a strong male side.

True Lies

Chapter 1

In 2002 I decided to go full time into psychic work

That was more than 15 years ago. That is when I really began to live a double life.

I do see myself as a woman now, but with a strong male side. Maybe I just need to get in touch with my feminine side. I still haven't told Ellen yet. I'm not looking forward to telling her.

Chapter 2

Homonym

*By Double Life I mean both my extracurricular activities
as an International Man of Mystery and also my Duality
as a woman*

Two meanings. It's a homonym.

Becoming a Woman

Chapter 3

Living as a woman

“How would it work in practice, Gráinne, you living as a woman?”

“It would work in duality, Éibhleann. Publicly my face is male. Only at home or in private or when in the company of women with whom there has been Rite of Passage to see me as a woman, only there would I live as a woman.

It’s about living a double life. There’s the side I show to the public. That’s Ciarán the man. And then there’s the other side that I keep secret. That’s the real me.”
