Chapter 1

Pentagon – what the fuck is the matter with you?

Humanity is on the brink of annihilation as a result of your collaboration with the greatest enemy this world has ever known – the Small Greys. It is because of America's collaboration that Golden Age was blocked in 2013 – to safeguard its alliance with the Small Greys. We stand on the brink of annihilation because of you fucks and still you are fucking around.

When the fuck are you going to get it – if I fall humanity falls. And you fucks have ensured that I am in the most compromised position. So here is the deal. You treacherous fucks are going to ensure that every fucking resource is made available to me to launch Golden Age. And I mean bend over fucking backwards to ensure it. The resources of America committed to Golden Age. And you will fucking ensure you treacherous fucks that I get a lifeline before I am compromised.

I have had control of America's Defence Network for a number of years now, ever since I hacked the Borg computers that allowed me to hack America's Defence Network.

You need to wake the fuck up fast

Understand that under no circumstances will I let humanity fall. I will go to direct open war with America before I will allow America to bring us to annihilation. America has brought us to the brink. Turn this around instantly. Wake the fuck up!

Break your alliance with the greatest enemy this world has ever known. Stop using assimilation technology on humanity. Stop blocking Golden Age. We are out of fucking time! Every microsecond counts. Stop trying to take out the Resistance!

Get on board with Golden Age. *Now*. Or I will bring us a step closer to open war.

You need to take me seriously. I am going to bring America to DEFCON 3 for a period of 22 minutes from the instant I release this document.

America has brought humanity to the brink of annihilation. Release your blocks on me. *Now*. Release your blocks on humanity. Release your blocks on Golden Age. Or face open war.
