About Ciarán

Chapter 1

On Manhood

*If I could choose it, would I like to be a woman?
As in a natural-born woman?*

No. No way. It's just not me. You see I really love being a guy. And I don't want to lose that.

I love being a guy. It's just that I *also* want to be a woman. It's like someone loving vanilla ice-cream. But he also loves pistachio. He loves both.

For a long time I only had tasted vanilla, without tasting pistachio. Then one day I tasted pistachio and thought wow, I like this. That's a bit like me and being a woman. I love the idea of being a woman, so long as I can still be a guy. It's about Duality.

No matter how far I go along the path of being a woman, I will always love being a guy.

Father Ted – Duelling Banjo

You see I realised something. I don't have to give up vanilla to have a bowl of pistachio.
